Experienced Front-end Developer specializing in ReactJS, with a strong foundation in CSS, HTML, JavaScript and Agile tools. Have also utilized Next.js for client side and server-side rendering components. Skilled in the full Agile Scrum methodologies and utilizing web services including REST APIs. Expertise in responsive design and test-driven development. Strong communication and problem-solving skills, with a commitment to innovation and delivering high-quality, maintainable code.

Skills

React js, Node js, Redux, Next js, Typescript, HTML, CSS, JavaScript, JSON Parsing, Web UI Development, Caching, and performance tuning, REST APIs integration, SQL, NoSQL, Data Structures and Algorithms, State Management, responsive design, GIT, Github, MongoDB, Azure Cosmos Database, React Hooks, Next.js, Prisma.

Experience

Accenture – Software Engineer – Gurgaon, India

August 2021 – Present (3.6+ years)

- Developed and maintained responsive web applications focusing on UI development using React and JavaScript.
- Implemented Fetch, Await, and Promises for efficient asynchronous operations and integrated RESTful APIs for seamless backend communication.
- Utilized Node.js, NPM, Yarn, and Webpack for efficient project setup and dependency management.
- Conducted unit testing and participated in code reviews to ensure code quality and maintainability.
- Implemented bug fixes and enhancements based on technical design and user feedback.
- Ensured web accessibility standards compliance in UI design and development.
- Integrated visualization libraries and utilized React Hooks, Redux, and React Router for state management and routing.
- Worked in Agile methodologies to ensure efficient project management and collaboration.
- Utilized both object-oriented and functional JavaScript paradigms to solve complex problems.

Projects

Microsoft Teams Live Translation

- Developed application to solve the multi-lingual user's problem in real-time, reducing user workload by 89%.
- Integrated Generative AI into UI/UX using Azure's Open AI resources, achieving 80% accuracy.
- Optimized the speed of application by 45% with the implementation of load previous transcripts.
- Utilized .Net core for the Azure OpenAI Translation engines for the use in the application.
- Developed real-time translation application using React and Azure cloud services.
- Integrated Generative AI into UI/UX using Azure's Open AI resources yields results that are 80% accurate, surpassing the precision of Microsoft's Premium feature.

Tech Stack: ReactJS, Microsoft Teams Toolkit, Typescripts, HTML, CSS, Fluent UI React North Star, Azure app service, Azure Open AI, Azure SignalR, .Net core.

POC on Azure Maps

- Teamed up with two colleagues to work on the Azure-map's proof of concept.
- Contributed to 70% of the POC's frontend UI/UX development and successfully fulfilled 90% of the client's requirements.
- Implemented Material UI design principles to create visually appealing and accessible user interfaces.

Tech Stack: HTML, JavaScript, Azure, Azure-maps

Expert Review Portal – Web application

- Developed 60% of the UI for the company's flagship product using Fluent UI React, Bootstrap, HTML, CSS, and Typescript; optimized user experience resulting in a 40% increase in user engagement and a 25% decrease in bounce rate.
- Helped 40% to the team members in documenting the project report.

Tech Stack used: Typescript, HTML, CSS, Redux, Bootstrap, Fluent UI react.

Personal Projects

RBAC based Dashboard using Next.js - [Link](#)

- Developed company portal finance layout using ReactJs and Redux (State management Tool).
- Included authentication over the Navigation layouts using React-router.
- Made the UI using shadcn UI library.
- Utilized clerk, third party library, for authentication and authorization for using the application.
- Consumed MongoDB for database related queries and for storing user specific information.

Tech Stack used: Next.js, Typescript, JavaScript, Clerk (authentication), MongoDB(Database), Shadcn(UI), Tailwindcss

Education

Bachelor of Technology in *Computer Science Engineering*

Amity University • Gurgaon, Haryana

CGPA – 7.9

Achievement

- MS Teams Live Translation project idea *won 1st rank* in GTCL.
- Received 2 times *Sparkling star award* in 2022.
- Frontend Bootcamp Certificate.

Certificates

- *AI-900* Microsoft Azure AI Fundamentals, Microsoft Platform
- *AZ-900* Microsoft Azure Fundamentals, Microsoft Platform
- *DP-900* Microsoft Azure Data Fundamentals.
